

Snapdragon 890 Hightime 5/6/17

I am a member of the association and unfortunately have to sell Hightime as we are unable to sail her due to health issues.

She is all ready to go away for a week or two trip, and has a new three burner hob and microwave ,new jabsco heads and only needs cosmetic work to inside to finish her off.

I am only asking £4.500 for her for a quick sale .She has a Volvo 2002 18 hp diesel and runs like a dream. There is an old Apelco radar fitted which works but the display is not very bright, a brand new Cobra dsc with built in gps, bidata speed and depth log ,bulkhead compass, and solar panel with dual battery charge controller.

The mast has an add on reefing system ,the genoa is furled.

She is not a project but with boats of this age there is always something needing upgrading. The boat is in the water on the Isle of Wight.

My contact details are 01983 406270. Or 07901606294

Please contact me if you require any further information .Mr M P Tinn. 15 Park Road, Brading ,PO3 60HU
